

AMA MEDICAL CLAIM HISTORY

This report summarizes payments made by the medical policy on behalf of the Academy to members for injuries sustained as a result of model-related accidents. In most cases these amounts were in addition to payments made by our members' primary health insurance policies.

There is no duplication of health insurance payment under the AMA program. The AMA columns below reflect payments that are a combination of claims where involved members have: 1) no health insurance, 2) no policy coverage, 3) deductibles are not met under primary coverage, 4) non-covered portions of amounts approved by the primary carrier (usually 20% of an approved amount) and 5) individual policy limits are exceeded.

The figures shown below are for all closed and open claims. Open claims are included since some amount of payment has been made with possibly additional payments pending. During the four-year period, 91 medical claims were filed.

FOUR-YEAR LOSS SUMMARY

| Total | 91 | | | |
| — Average Payments | | \$ 13,121.39 | \$ 3,175.38 | |

Additional claims/payments may be made for 2007. Delays are usually due to the member's filing with their primary medical coverage and awaiting claim processing prior to AMA's consideration.

The Programs Department assists members by working with them in preparation of properly documented claims in an effort to expedite payments ultimately made by our insurance carrier.
