

UAS4STEM 2017 presented by Embry-Riddle Aeronautical University

Embry-Riddle Aeronautical University to sponsor AMA's UAS4STEM program

MUNCIE, IN—The Academy of Model Aeronautics (AMA) Education department is pleased to announce that Embry-Riddle Aeronautical University will be the Brand Sponsor of the UAS4STEM Search and Rescue Challenge for the 2016-2017 school year. This sponsorship will help further promote Science, Technology, Engineering and Math (STEM)-related learning and careers across the country.

UAS4STEM is an educational program designed to encourage students to explore the sUAS (drone) phenomenon through teamwork and competition. AMA and the university support educational programming that nurtures the growth of aviation participation among youth.

Support education through aviation! Visit UAS4STEM.ORG for program details.

###

The Academy of Model Aeronautics serves as the nation's collective voice for approximately 195,000 modelers in 2,400 clubs in the US and Puerto Rico. Headquartered in Muncie, Indiana, AMA is a membership organization representing those who fly model aircraft for recreational and educational purposes. For more information, visit www.modelaircraft.org.
