

The AMA History Project Presents: Biography of BEV WISNIEWSKI

Written by AMA Staff (12/1980); Transcribed by KE (04/2012); Reformatted by JS (05/2012)

The following was published in the December 1980 issue of Model Aviation magazine, under "Statements from AMA District Vice-President Candidates" in the AMA News section.

District 10 Candidates

Bev Wisniewski, Bellflower, CA. My name is Bev Wisniewski and I am a candidate for Vice-President from District X. Many of you already know me or have worked with me at meets, as I have been very active in all phases of aeromodeling activities for many years. I am probably best known for directing Control Line meets; however, I have also worked many RC and FF meets.

My support of AMA extends from District X to the national scene, in particular the annual national contest where I have worked in Headquarters operation, tabulation, and various events. I have been a Contest Director for many years and started my Nats service in 1952. Locally, I have worked in the AMA booth at the trade shows.

The Vice-President is the voice of District X in the AMA Executive Council. I firmly believe the vote of the VP must represent the MAJORITY voice of the members of the district. In order to obtain this majority view, the VP must communicate with as many district members as possible through attending club meetings, contests, and generally being available when needed. In a district as large as ours, I feel meetings should be held at least once in each major population area each year. Much can be accomplished by these personal meetings in the way of airing gripes, proposing solutions, and then allowing me to carry these thoughts to the Executive Council meetings for consideration.

With your support I will be your next Vice-President.
