Select Applicable Competition Regulations this proposal relates to (select one from drop-down box):

Indoor Free Flight

Give Brief Summary of the Proposed Change: (Note: You can drag the right bottom corner of the box to enlarge for additional space.)

Modify the proposed P-18 propeller wording to include 6" commercial propellers instead of only up to 5.5" propellers.

State exact wording proposed for the Competition Regulations. List paragraph number where applicable. Example: Change "quote present rule book wording" to "exact wording required". (Note: You can drag the right bottom corner of the box to enlarge for additional space.)

27.4 The propeller shall be an unmodified commercially available plastic prop with a nominally maximum diameter of 6". If the propeller is advertised as being a 6" unit, it is acceptable for this event. Weight may be added for balancing.

State logic behind proposed change, including alleged shortcoming of the present rule(s). STATE INTENT FOR FUTURE REFERENCE (Note: You can drag the right bottom corner of the box to enlarge for additional space.):

There is only one 5.5" propeller available today. There are at least eight 6" props. Using this size enables the modeler to experiment with propellers to find the one that works best.

If this proposal is for a new event, include all event test data/information here. Please provide information on what testing of this new event has taken place to include number of participants and number of contests. (Note: You can drag the right bottom corner of the box to enlarge for additional space.)

Covered in original proposal

State effect, if any, on current AMA records:

None

Note: The Contest Board Chairman may, in coordination with the submitter of the proposal, at any time prior to submitting a proposal to the contest board for Final Vote, Edit proposal wording to increase clarity and to avoid ambiguity provided, the proposal intent is not changed.
