

2019 ANNUAL REPORT

ACADEMY OF MODEL AERONAUTICS
JANUARY 2020

Executive Summary

Welcome to AMA's first annual report. 2019 was a turbulent year with many ups and downs.

Initially we faced challenges with 400-foot altitude limits, but through our advocacy work, members began securing the rights to fly as they have before. AMA stabilized three to four years of membership losses and entered 2020 with a balanced budget. Our partnerships are mutually impactful and will move the hobby forward to include work with the Air Force JRTOC, Horizon Hobby, and EAA. We also heard our members' requests for clearer communication. We are finally starting to make strides in our communication efforts with a full communication audit and plan as well as new communication tools.

Yet, as we ended the year, our hobby was thrown new challenges, most notably FAA's proposed rule on Remote ID released on December 26. Rest assured, as we enter 2020, AMA will champion for our hobby against this deeply flawed rule.

Thank you for your support and passion for this hobby. Together we will ensure that this great hobby can be enjoyed for many generations to come.

AMA's Mission

The Academy of Model Aeronautics is a world-class association of modelers organized for the purpose of promotion, development, education, advancement, and safeguarding of modeling activities.

The Academy provides leadership, organization, competition, communication, protection, representation, recognition, education, and scientific/technical development to modelers.

Table of Contents

3	Improve Membership Benefits and Retention
4	Improve Membership Acquisition
5	Increase Media Exposure
6	Grow STEAM Efforts
7	Improve Member Communications
9	Celebrate AMA's Involvement on the 50th Anniversary of the Apollo Moon Landing
10	Promote and Grow Events
11	Increase Nats Attendance and Exposure
13	Advocate for the Hobby
15	Remote ID
17	Build Partnerships to Grow the Hobby
20	Increase the Museum's Digital Presence
21	Continue to Grow the AMA Foundation
31	Establish a Balanced Budget

Goal: Improve Member Benefits and Retention

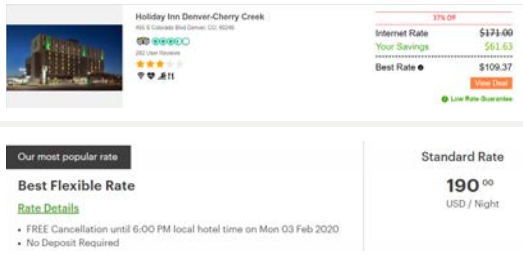

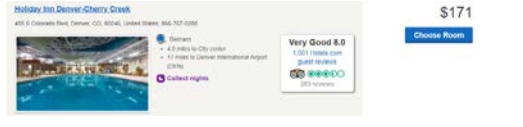

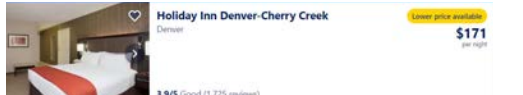

Give Members More Access

In 2019 members have more access to data, events, and information. Members will see that AMA retooled many of its online features. Pictured to the right is the improved event listing on www.modelaircraft.org, giving members immediate access to event details, driving directions, event websites, contact information, and club details.

Save on Travel

Members can now take advantage of AMA's Affinity Travel Program and can pay back their dues with just a few stays. Members simply sign into www.modelaircraft.org and access the Affinity Travel link through the Members Only section. To the right is a comparison of a Holiday Inn in Denver for February 4-5, 2020*. This one night stay alone saves members nearly their entire membership dues for the year!

 \$171.00	

*rates effective 11/7/2019 and may not represent today's rates as prices fluctuate daily.

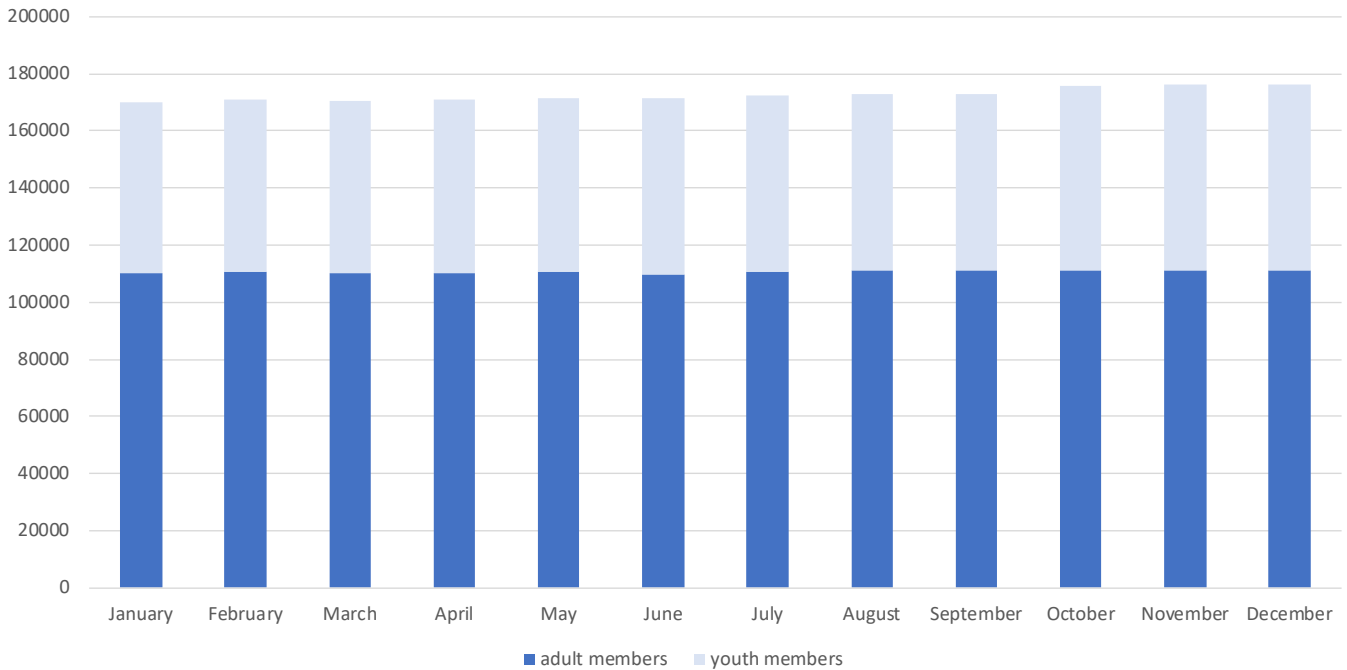

Improve Member Online Experience

Members can more easily recover account and login information. AMA also launched an abandoned cart procedure to assist members in completing their application and an auto-renew option so members can easily maintain their membership.

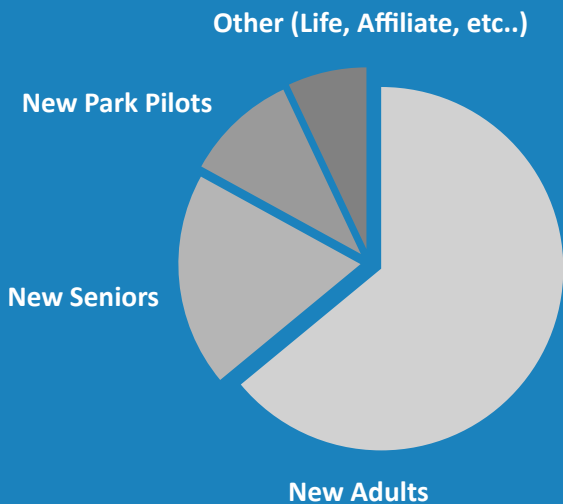

Goal: Improve Membership Acquisition

AMA successfully stopped a four-year decline in membership this year and maintained a steady month-by-month membership count.

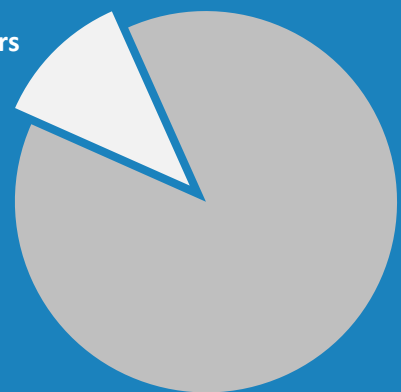

AMA Enrolls 12,000 New Adult Members

AMA completely revised its marketing efforts to include an aggressive digital marketing campaign. The campaign successfully introduced thousands of new members to the AMA and AMA clubs. Approximately 87% of new members are in the adult or senior category.

12% New Members

88% Renewing Members

Goal: Increase Media Exposure

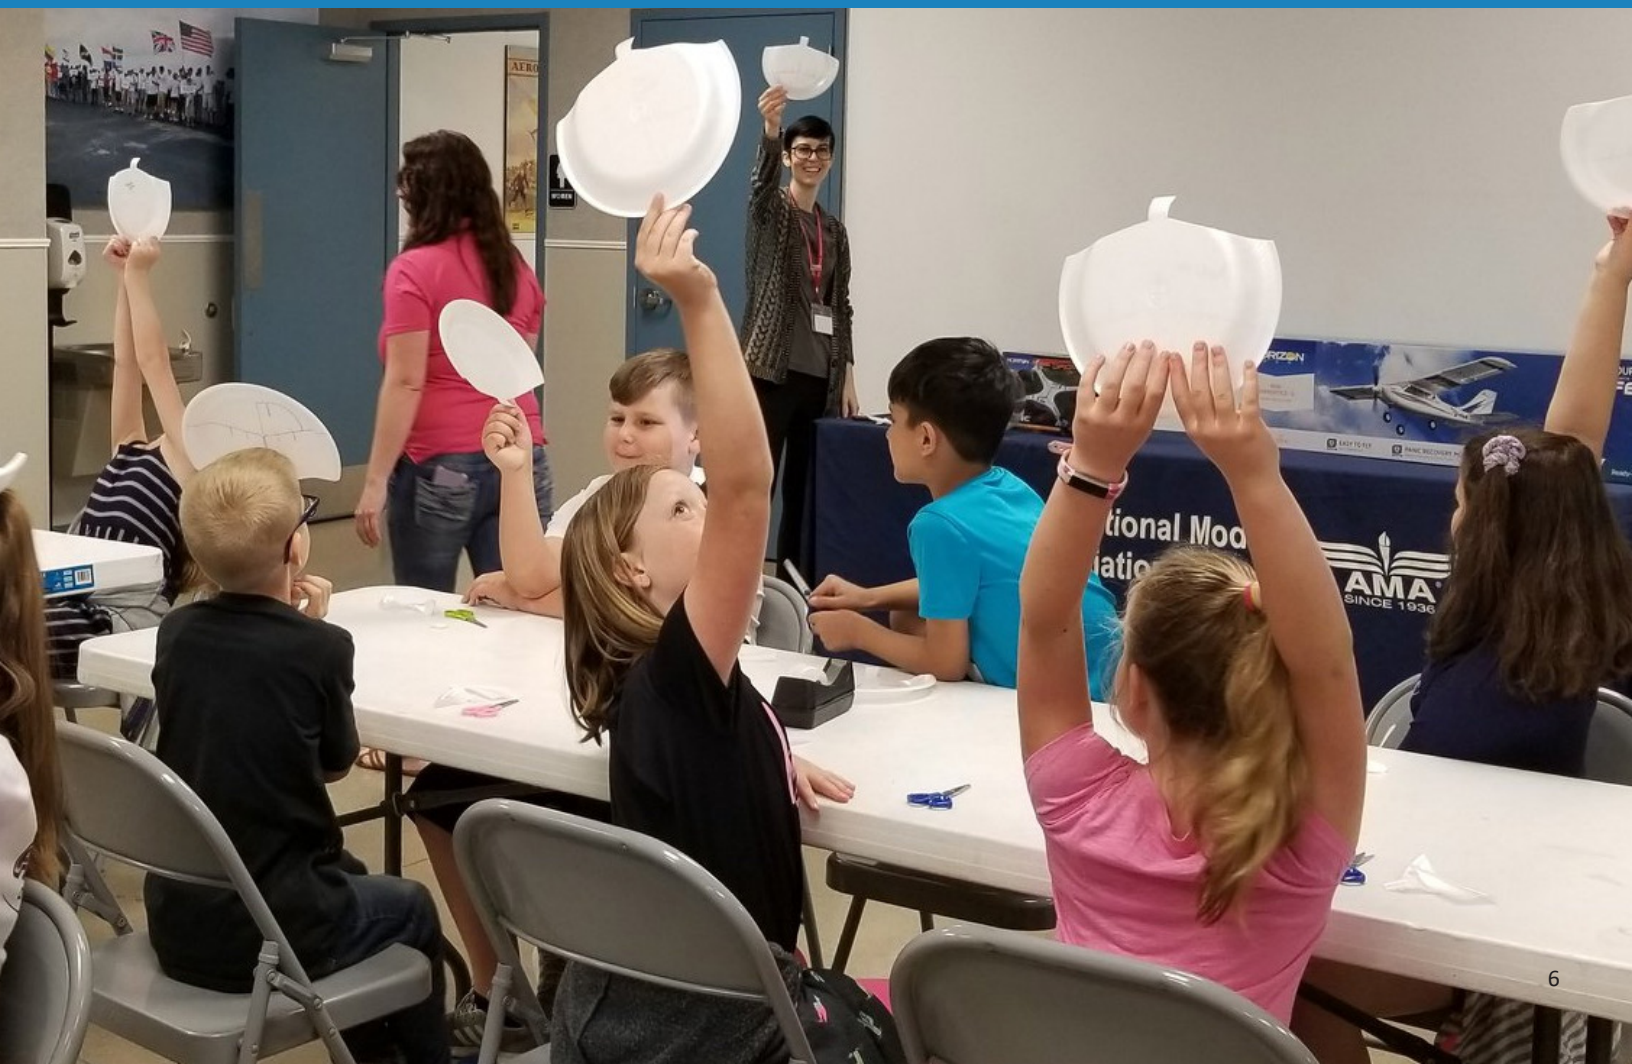

AMA invited Nickelodeon's hit TV show "Dude Perfect" to fly at AMA's Richardson Radio Control Flying Club in Princeton, Texas (pictured above). AMA Youth member Rhett Lambert helped arrange the shoot and participated in the episode. The episode debuted May 1, 2019, as 720,000-plus viewers that night were introduced to the joy model aviation on Nickelodeon.

Goal: Grow STEAM Efforts

To build upon AMA's Science, Technology, Engineering, Arts, and Mathematics (STEAM) programs, this year AMA was awarded a \$100,000 grant from the Arconic Foundation - double 2018! Thanks to the Arconic Foundation and AMA donor support, AMA can continue to introduce youth the joys of aviation through STEAM curriculum and programs throughout the country.

Goal: Improve Member Communications

Members are the heart and soul of our hobby. When our members, clubs, and special interest groups are empowered to be successful, the hobby and association will be successful. This year, AMA worked to improve our communications to our membership.

Content Strategy

AMA conducted an audit and established key performance indicators for all of our communication pieces to improve the effectiveness of our messaging. In addition, the strategy creates a methodology to better schedule and distribute content to members.

6 Million Emails

Over the course of the year, members received 6-plus million emails with information about the hobby and association.

Model Aviation Redesign

Members received a complete new *Model Aviation* this year. The entire magazine was redesigned to provide members with better content, access to information, and an improved reading experience.

AMA Podcasts and Live Streams

Members participated in new media platforms to include the AMA Podcast hosted by Matt Ruddick. Tune in each week through your favorite podcast provider or at www.modelaircraft.org/podcast. Pictured to the left is a SIG leadership live stream to better communicate with our leaders and members.

More Engaging Social Media

AMA retooled its social media strategy to better engage our members. This year Facebook exceeded 62,000 followers, comments and messages are quickly responded to and posts are more strategically placed.

CONVERSATION*

*A NEW WEEKLY PODCAST
HOSTED BY AMA'S MATT RUDDICK*

Goal: Celebrate AMA's Involvement on the Apollo Moon Landing During the 50th Anniversary

This is more than just a hobby. AMA celebrated the members who made the Apollo mission a success to include Bob Wells who designed the descent engine and Neil Armstrong who commanded the operation. All cited aeromodeling as the catalyst to their careers in aviation.

Goal: Promote and Grow Events

In addition to significant website upgrades for Contest Directors and Event Managers, AMA supported and promoted numerous events this year including these special 2019 events.

Tournament of Champions

AMA participated and promoted the 2019 Tournament of Champions reunion to include celebrating the event's historic significance through the National Model Aviation Museum.

National Association of Rocketry World Cup

In addition to hosting the National Association of Rocketry World Cup at the International Aeromodeling Center, AMA and NAR leadership collaborated on advocacy efforts.

FAI World Championships

AMA helped facilitate numerous FAI events and championships across the globe in 2019 to include F3P, F3K, F3CN, F3A, F3B, F3D-F5D, F5J, F1E, and F1ABC.

Goal: Increase Nats Attendance and Exposure

In 2019, AMA implemented a new strategic effort to grow and promote the Nats to include more aggressive advertising and communication efforts to expose competition to new members. As a result, we successfully reversed a 10-year decline in Nats participation with a 9% growth, adding 66 more participants than last year!

AMA dramatically ramped up its communication and promotion of the 34-day event. AMA created 86 blog posts with event and daily updates totaling 61,189 page views by 46,054 individuals. AMA coverage culminated with more than 20 pages in *Model Aviation* magazine. That's great exposure to our hobby, disciplines, and SIGs!

AMA created 10 videos as we helped explain and introduce our SIGs, disciplines,

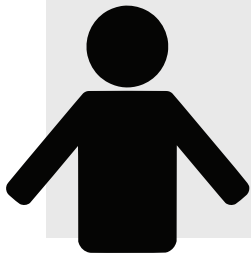

and competitions to a new generation of modelers. Topics included: Hunting Thermals, Collective Pitch RC Helicopters, RC Pylon Callers, and Asymmetrical CL Speed Design. These videos offer other members and hobbyists an inside peek into the sport and diversity of our hobby.

AMA also increased its electronic communication and promotion of Nats. In addition to our regular coverage in *AMA Air* and *AMA Today*, we distributed 23 mass emails, 4,934 Flickr photos, 51 Facebook posts, and 53 Instagram posts all reaching over 100,000 eyeballs.

To maintain this momentum, AMA invited all the CDs and Special Interest Group leaders to AMA HQ (photo above). The goal of the day-long meeting was to collaborate on new ideas to maintain growth for Nats 2020.

2019 NATIONAL AEROMODELING CHAMPIONSHIPS

Goal: Advocate for the Hobby

LOCAL ADVOCACY

302 state-level bills were introduced in 2019 from 39 different states. AMA effectively tracked and engaged with every bill. As needed, AMA attended hearings, proposed amendments, or mobilized members to positively shape a bill.

AMA IS SHAPING NATIONAL POLICY

AMA championed in the 2018 FAA Reauthorization bill to mandate that community based organizations such as AMA have a leading role in shaping regulations. This year, AMA has successfully led efforts with industry-led roundtables, the Unmanned Aircraft Safety Team, the Drone Advisory Committee, and other policy efforts.

ALTITUDE PROTECTIONS

AMA successfully advocated and is obtaining altitudes above 400 AGL for our flying sites in both controlled and uncontrolled airspace.

302
state-level bills
were tracked and
engaged by AMA.

302 bills related to UAS were introduced from 39 states in 2019. Countless ordinances and policies were also introduced across 89,000 local governing bodies. AMA effectively tracked, categorized, and engaged each bill using a methodology that prioritized each regulation into a red, yellow, or green category.

AMA Taking a Leadership Role

AMA drove recreational UAS discussion in Washington, D.C. to legislators and regulatory bodies. Efforts include conducting stakeholder meetings in conjunction with the Consumer Technology Association (CTA). These meetings, pictured above, are an important step toward advising the FAA with the best approach for our hobby. In addition, AMA participated in Safety Risk Management meetings to secure clubs altitudes above 400 AGL in controlled airspace.

Introduce Regulators Firsthand to Our Hobby

AMA clubs such as the Prince George's Radio Control club, shown below, conducted a lunch-and-learn event with the public and the FAA to demonstrate our safety program and operations. AMA also hosted regulators at AMA's Expo and other events to buddy-box and demonstrate our hobby and safety programming firsthand.

Remote ID and Tracking

In 2016 the FAA, commercial operators, and national security entities began discussions on remotely identifying UAS. Immediately AMA advocated for our hobby and petitioned for a seat on the FAA Remote Identification and Tracking Aviation Rulemaking Committee.

AMA argued for a common sense approach to Remote ID. We understand that autonomous or commercial UAS may need Remote ID, but model aircraft only capable of flying within line of sight do not. Our model aircraft do not pose any new risks to the airspace. In addition, identification of the operator can be easily accomplished by looking for the individual on the flightline with two thumbs on the sticks.

While many in Washington, D.C. agreed with AMA's common sense approach, some aviation rulemaking committee members, security agencies, and UAS stakeholders did not. You can read the options and disagreements expressed during the Remote Identification and Tracking Aviation Rulemaking Committee in the FAA final report published in 2017.

After two more years of deliberation, the FAA released its compromise in the December 26, 2019, proposed rule. The FAA attempted to accommodate our community, but as written, the proposed Remote ID rule will not work. AMA will continue advocacy efforts to ensure that Remote ID will not determinately impact our longstanding safe hobby. To learn more about AMA's efforts going into 2020 and Remote ID, visit www.modelaircraft.org/gov.

Executive Council Engages Congress

The AMA Executive Council spoke on Capitol Hill and to FAA leadership in June 2019, on the burdens of regulations. The council emphasized AMA's commitment to safety and education.

Members Engage Congress

AMA asked its members to contact Congress to accommodate our operations to include flights above 400 feet. Your help in the process resulted in AMA being able to continue its operations safely in the airspace as clubs are safely securing altitudes greater than 400 feet.

The screenshot shows the top navigation bar of the AMA website with links for AMA FLIGHT SCHOOL, AMA FOUNDATION, AMA SAFETY GUIDE, 1-800-FLYAMA, JOIN/RENEW, Shop, Donate, and Login. Below the navigation is the AMA logo and a menu with Home, About AMA, Membership, Programs, Media & Resources, Events, and Museum. The main content area features a dark blue header with the title "Fight for Higher Flight!". Below the title is a sub-header: "Fight For Higher Flight! Congress must tell the FAA to exercise flexibility regarding altitude restrictions. Fill out the fields below to email your senators and representative." The form includes input fields for "First & Last Name", "Email", "Phone", "Address", "City", and "Zip". An orange "Next" button is positioned below the fields. At the bottom of the form is a small logo that says "Powered by OneClickForms".

Goal: Build Partnerships to Grow the Hobby

AMA clubs, in partnership with EAA, took advantage of new opportunities to engage youth with aeromodeling building and flying programs.

AMA clubs began training new hobbyists who may never have been exposed to the AMA community through the new AMA and Horizon Hobby Flight School which includes an AMA co-branded Apprentice.

Recognizing potential membership crossover, the AMA worked with the National Rocketry Association to promote our hobby, invited NAR members to join, and hosted the NAR world cup competition at AMA HQ.

AMA Joins Forces with the Air Force

AMA and the Air Force Junior ROTC formed an MOU this year to collaboratively fuel the spirit of aviation among youth through STEAM programming and Junior ROTC programming supported by the AMA. Currently, there are more than 125,000 cadets in the Air Force Junior ROTC program who will be introduced to the world of model aviation and our great hobby. Pictured above is Air Force Junior ROTC Cadet Rosa Lopez, from Texas, showing off her team's handmade glider during the Air Force Junior ROTC Aerospace and Technology Honor Camp.

Goal: Increase the Museum's Digital Presence

Thanks to member support and dues, the National Model Aviation Museum added 138 new artifacts, 1,500 periodicals, more than 100 plans, and 1,200 new archival items to its 11,000-plus collection. This year, the museum launched an online digital collections with more than 1,000 object records and 2,734 library records for our members to access online! The museum is adding to the collections daily, giving members from around the world access to the museum.

New Online Webstore
Member can experience a new webstore to complement the museum brick-and-mortar store.

Goal: Continue to Grow the AMA Foundation

The AMA Foundation continues to grow and provide more funding for AMA programs each year. We were thrilled to welcome a new grants and programs coordinator, Kelsie Walker, to the team this year. The AMA Foundation has received and distributed more than \$200,000 in grants for the AMA to include the Flying Site Improvement Grant, Take off And Grow (TAG) Grant, Disaster Relief Fund, and Club Recognition and Reward Grant.

Thanks to the following members* who made a contribution to the AMA Foundation this year!

*donors who have requested anonymity are not listed.

Thanks to you...

In 2019, 13 students were awarded a total of \$50,000 in scholarships to pursue academic pursuits.

Robert Van Zyl (Peachtree GA)

College: Georgia Tech

Awarded:

Charles Hampson Grant Scholarship: \$7,000

Toledo Weak Signals Club Scholarship: \$1,000

- Started the first drone-based high school club in his county (that later competed in AMA UAS4STEM competitions).
- Helped to introduce 3D printers into the high school design classes.
- During his freshman year of high school founded a local MultiGP drone racing chapter called South Atlanta FPV.
- 2016 third place grand award-winning project at the Intel International Science and Engineering Fair.

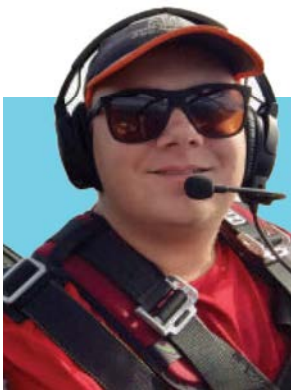

Stoil Avramov (Elkridge MD)
College: Capitol Technical University

Awarded:

Charles Hampson Grant Scholarship: \$2,000

Clifford & Nancy Telford Scholarship: \$5,000

- Completed the Aerospace Engineering Program.
- Flies gliders, multirotors, gas, and electric-powered planes.
- Has participated in many FAI disciplines and has six times proudly represented US Juniors in World Championships.

“A heartfelt thank-you to my parents for their encouragement, guidance, love, support, and wisdom as I continue on my educational and career path. I would like to extend my gratitude to those in the aeromodeling, IMAC, and full-scale communities for their friendship, mentorship, and support! I am thankful for this scholarship to assist in these educational pursuits, which facilitate my plans, goals, and dreams in the aviation field. Enchanted by aviation as a young child, for me personally, it will forever be a passion and way of life. Thank you AMA!”

~Joshua McCreary, Basil & Dorothy Cooper Memorial Scholarship recipient.

Goal: Establish a Balanced Budget

AMA is entering 2020 with a balanced budget thanks to improved membership programming, increased acquisition efforts, and operational efficiencies.

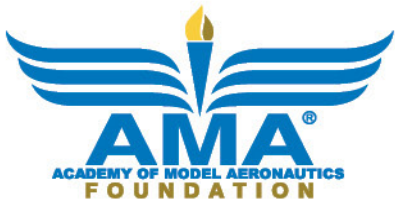

Revenue

AMA's primary source of revenue comes from membership dues. This year AMA began efforts to diversify its revenue stream including establishing a business/partnership division within the organization and taking new approaches with advertising.

Expenses

To work toward a balanced budget, AMA renegotiated nearly every vendor contract and reduced programming that wasn't core to AMA's mission to serve our members and the hobby. AMA is on pace to reduce expenses by nearly \$2M in 2019.

2019 Year in Review

YOUR SUPPORT MADE AN IMPACT

NATIONAL MODEL AVIATION MUSEUM

MUSEUM COLLECTION

138 new artifacts

100+ plans

1,500+ periodicals

1,200+ archival items

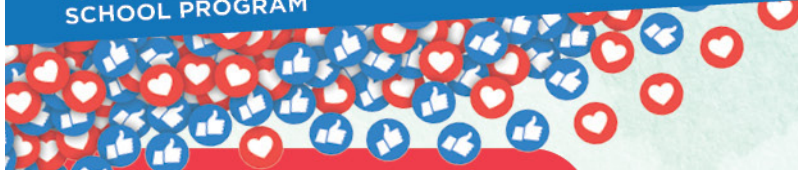

- ✓ 300 clubs supported through flying site assistance program
- ✓ \$32,542.54 awarded among 44 AMA Chartered Clubs via Flying Site Improvement Grant program

TAG grant program: \$20,240 in 11 AMA districts across the nation to 45 clubs

- ✓ \$50,000 awarded to 13 AMA Youth members
- ✓ 33 AMA Youth Members at Camp AMA at IAC
- ✓ Secured a \$100,000 programs grant from the Arconic Foundation

- ✓ WORKING WITH EAA ON JOINT MEMBERSHIP VENTURE & EAA YOUNG EAGLES BUILD AND FLY PROGRAM
- ✓ PARTNERED WITH HORIZON HOBBY TO MAKE IT EASIER TO GET INTO MODEL FLYING WITH THE HORIZON HOBBY FLIGHT SCHOOL PROGRAM

NEW ONLINE STORE

- ✓ 3,975 new Instagram followers
- ✓ 2,558 new Facebook followers
- ✓ 24 episodes of AMA Air
- ✓ 24 AMA Today e-newsletters
- ✓ 12 issues of Flightline for AMA Youth members
- ✓ 4 issues of The Torch for AMA Foundation supporters
- ✓ 10 Nats videos
- ✓ Nearly 5,000 posted photos

- ✓ 800 Nats competitors
- ✓ Team selections held for 2020 world teams
- ✓ \$5,000 awarded through Club Recognition and Reward program
- ✓ 46 registered pilots at 2nd Annual Friends of the Foundation Fun Fly
