

Club and Flying Site Information Form

The Charter Club Search tool on the AMA website is a great way to provide pertinent information about your club to new and potential AMA members. When using the tool, they can find clubs within their area whose environment and activities match their own interests.

To help with this endeavor, we are asking that you mark each box that pertains to your club's activities, as well as your flying site operations.

We greatly appreciate your assistance in helping new members join us in the exciting world of model aviation!
