AMA Competition Regulations Rules Change Proposal Form

The current issue of the Competition Regulations must be referenced.

Proposal Number: RCAH24-01

Received Date: 3/1/2023

Revised Date:

Version Number:

Proposal Type: Basic

Applicable Competition Regulations this proposal relates to:

RC Helicopter

Give Brief Summary of the Proposed Change:

AMA "expert" flight sequence is intended to (in perpetuity) always follow the current flight sequence of F3C "preliminary" maneuvers of whatever year it is.

State exact wording proposed for the Competition Regulations. List paragraph number where applicable. Example: Change "quote present rule book wording" to "exact wording required".

AMA Expert helicopter class shall follow current (in perpetuity) year of event F3C preliminary flight maneuvers only. One sequence only (not multiple as in F3C).

State logic behind proposed change, including alleged shortcoming of the present rule(s).

Our (IRCHA) intentions are to make "expert" class the logical ramp point to F3C. All practice and training will always pertain to the next step BUT not ever point out and forced to move. Also assures that the expert class will remain "fresh" as it pertains to F3C potential transition.

If this proposal is for a new event, include all event test data/information here. Please provide information on what testing of this new event has taken place to include number of participants and number of contests.

We have done unofficially for multitude of competitions.

State effect, if any, on current AMA records:

None

Note: The Contest Board Chairman may, in coordination with the submitter of the

proposal, at any time prior to submitting a proposal to the contest board for Final Vote, edit proposal wording to increase clarity and to avoid ambiguity, provided the proposal intent is not changed.

Submitter Information:
