Club Disaster Assistance Program

As we all know, parts of the United States have experienced some severe weather during the last few months and many of our members and clubs have been impacted by storms, flooding, fires, etc.

Guidance for participating at full-scale air shows

It is not uncommon for AMA club members to be invited to participate in and conduct demos during full-scale events. This is a great opportunity to showcase our hobby to the public. Although the FAA permits modeling operations during full-scale events, be sure to read AMA and FAA's requirements to ensure you are in full compliance.

Scott Anderson appointed as AMA's National Leader Member Coordinator

AMA would like to welcome Scott Anderson as its new National Leader Member Coordinator. Scott comes from an aviation family, and loves both full-scale aviation and model aviation. He holds a private pilot's license, and has been involved in model aviation for more than 25 years.
