Louis "Lou" Goldberg and Aeromodeling Legends

[read more](#)

In the late 1930s, when Lou Goldberg was roughly eight years old, a young man with a trim physique knocked on his door. The man asked if he could watch a program on the family's television, and Lou was surprised to discover that the man on the television was the same one in his living room. As it turned out, that wouldn't be Lou's only encounter with Dr. Walter Good.

Diagnosing Common Issues and Solutions

[read more](#)

We all run into problems now and then. It doesn't matter if you're new to electrics or have been doing it for years. The key is knowing how and where to look for the things that might be contributing to the problem. You don't need to be an engineer, but it helps to have a plan and to be organized.

How-to

Turn the AMA Cub into an Electric RC Model

[read more](#)

Author Tim Bailliff hadn't seen an AMA Cub in years. When a friend gave him two AMA Cub kits, he began thinking. By combining the classic little Free Flight model with modern micro RC technology, Tim converted the AMA Cub into a fun, easy-to-fly RC airplane.

For members

Flying Site Assistance

[read more](#)

Are you communicating with your club members and the owner(s) of the flying field? Invite the owner(s) of your field out to your club for a picnic, fly-in, or other event. Let them know that your club is active and it depends on and appreciates the field it is flying from!
