Even those who don't enjoy flying quads can enjoy the camaraderie among these competitors. Watch now to learn what happens when AMA staff members Dillon, Matt, and Kyle go head-to-head to see who can build the best racing quadcopter on a $250 budget!

New products
DJI Mavic Pro ND Lens Filter 4-Pack
Neutral density and polarization filters can be the difference between merely getting a shot and getting the perfect shot. Read more to learn about the features of these filters!

How-to
Learn How to Set Your Flight to Music
If you have become proficient in your flying, it will be natural to augment your flights with accompanying music. Read more to learn what you need to do to add music to your flights!

For members
Meet the Educators
AMA has many partners across the country who are helping us build our educational outreach programs and partnerships. You can now get to know some of our educators through the AMA Flight School webpage. Read more to learn how they are assisting the AMA's Education department with education through model aviation!

Technical
Dissecting Helicopter Setup and Terminology
Learning to fly model helicopters can be challenging and confusing to a beginner. Read more to learn the setup techniques that can be used for most 3-D helicopters!
